

ADDENDUM-1

2019 Paved Roadways Tender

Question 1: Are you aware of any concrete gutter/curb repair that will be required prior to starting any of the locations?

Answer 1: There will be a few locations for repair along river street East between Main and 1st, that have been measured as per the other locations on the list the sidewalks have not yet been assessed this will be done as weather permits and there is enough visibility of the sidewalk for proper assessment.

Question 2: Item 6.3 in the spec Mill/Pave w/thin overlay. Can you verify that this is 40mm of MJ2 and 30mm of MJ4 for a total of 70mm. It is outlined as one pay item of MJ2 70mm in the bid form is this correct?

Answer 2: The Bid form has been fixed to account for the 40mm lift of MJ2 and 30mm lift of MJ4 as per specification 6.3 in the tender documents.

Question 3: Could a level course item be added to the tender form to address variable road profiles?

Answer 3: Pavement leveling has been added to the bid form to address variable road conditions, areas where pavement leveling is required must be confirmed by the engineer before placement and measured by the engineer for payment.

Question 4: Item 24 in instructions to bidders notes we need to provide a CCDC 11 document. Can you confirm that this is a requirement at tender time or if the wording can be changed on this item to note that it may be requested by the city at a later date? In item 44 the tender is already asking for a Letter of Evaluation which will have all the same information on it as the CCDC 11.

Answer 4: In Item 24 (Instruction to Bidders) CCDC 11 will only be required upon request from the City, however Item 44 where it asks for Letter of Evaluation will still be required.

Question 5: In Section 45 a) Insurance it mentions Project Wrap Up Liability and Course of Construction/Builders Risk are these necessary for this contract?

Answer 5: Please remove the following from section 45 of the instructions to bidders.

- ***Project Wrap-Up General Liability Insurance insuring against third party claims arising out of the work. The policy will provide a combined single limit of not less than five million dollars (\$5,000,000) for each occurrence involving bodily injury, death or property damage and in the aggregate for products and completed operations only. The policy shall include, and not limited to, the following coverage and clauses:***
 - ***Products and completed operations including twelve (24) months extension beyond total performance of the work;***
 - ***Non-owned automobile liability including legal liability for damage to hired automobiles;***

- ***Cross liability/severability of interest clause and a waiver of subrogation in favour of each of the insureds;***
- ***Broad form in respect to property damage, completed operations and products;***
- ***Blanket contractual liability;***
- ***Employers liability;***
- ***Waiver of subrogation; and***
- ***No exclusionary language for existing property not forming part of the project.***
- ***All Risks Course of Construction Property Insurance (Builders Risk) insuring direct physical loss or damage to materials, equipment, machinery, supplies, and other property permanently incorporated in the work while in the course of construction, installation, erection, commissioning, demolition, reconstruction or repair and which is located at the site of the work, or wherever located within North America including while in transport. Such insurance shall include machinery breakdown coverage, testing and commissioning coverage and allow for occupancy or use prior to total performance of the Contract. The policy shall include a waiver of subrogation in favour of each of the owner and each of the subcontractors. The policy will have a limit equal to the total value of the work +10%.***
